

NEW-YORK TRIBUNE.

NEW-YORK, THURSDAY, JANUARY 19.

ABSENTEES—In our notice of the absences on the vote for Speaker, we classed Hon. William Nelson, of this State. Mr. Nelson came home on important business just before leaving Washington "paired off" with Mr. Seddon, of Virginia, on the Loco-Foco side. His absence, therefore, did not affect the result.

FROM EUROPE—The steamer America is now above 11 days out from Liverpool, with a fortnight's delay news from Europe, but when the Eastern Telegraph closed last night nothing had been heard from her.

WE entreat the earnest advocates of Free Soil to look into the developments of feeling and purpose made in both branches of our Legislature yesterday. Our friend who stoutly urged that the Free Soil Democracy had joined the Hunkers is *order to convert them* is expressly bentred to note the reluctance of the United Democracy, even in the House organized by them, to come at once to action on the subject of Slavery and its Extension. They don't like Mr. Raymond's resolutions; they don't like any others that have been offered; they don't offer any themselves, and they don't want to vote upon any, at least until after they can have been cooked up by a Select Committee of their own choosing who will keep the whole subject out of the House until too late for due consideration, without interrupting the Legislative business not yet matured by Committees, and not now ready for action. Earnest champions of Free Soil! read and think!

Central America.

Our private advices from Washington leave no room for doubt that all causes of difference between the United States and Great Britain respecting the proposed Ship Canal through Nicaragua will be promptly, amicably and satisfactorily adjusted, on terms honorable to both parties and eminently conducive to the speedy prosecution and uninterrupted usefulness of the great undertaking in question. We cannot now speak of details, but we have every reason to expect that the two oceans will within three years be united by a ship canal through Nicaragua, under a guarantee of its perpetual freedom and neutrality by several of the chief powers of Christendom.

The *Pittsburgh Mercury* may or may not see why we prefer to settle one question at a time—to have the Canal question adjusted on a beneficial and immutable basis before kicking up a general row with regard to Mosquito, Honduras and the rest of the continent. This will be considered in their proper order. But it is due to candor to add that we cannot concur with the Mercury when it says:

The Quartz Strata being Worked.
